associated with content of the television programming stream and prompts or triggers the viewer during the presentation of the television programming stream to provide an indicated response to an event within an indicated time period; furthermore, the prior arts do not suggest the evaluating step for viewer performance based on the response time, and that response time is compared to one of another response time to another event and an averaged response time of two or more other events as cited in claims 1, 13, and 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
